- **Recognition of prior learning**

Description

The Royal Rehabilitation College is part of the Royal Rehabilitation Centre Sydney. The College has the benefit of immediate access to the staff and their expertise as well as the facilities of the Royal Rehabilitation Centre. This assists the College to maintain a contemporary approach to health education.

The Royal Rehabilitation College is a leader in the delivery of the Certificates III and IV in Allied Health Assistance.

Specialist service role

The Royal Rehabilitation Centre Sydney has provided quality rehabilitation for more than 100 years. The Royal Rehabilitation Centre provides rehabilitation based on leading edge research and practice. We have a proven history in the provision of rehabilitation to people with spinal and brain injuries, burns and complex care needs. We undertake this rehabilitation in our rehabilitation hospital and in the community.

Staff

The staff of the College are qualified health practitioners who have many years of experience in the provision of healthcare. They combine this background with tertiary qualifications and experience in health education and training including the Certificate IV in Training and Assessment.

Facilities

The College resides within the Royal Rehabilitation Centre Sydney and has well resourced training facilities.

Partnerships

The College has an interest in forming partnerships for the delivery of courses in the local, rural, interstate and overseas markets.

Flexible approach

The College is proud of its ability to provide programs that are tailored to suit the needs of the student and their workplace. Course structures are designed to meet individual student requirements.

Research associations

The Royal Rehabilitation Centre has research affiliations with the University of Sydney. Outcomes of research provide current validation of the courses offered.
