Dear James and Ken

**RE: ROYAL REHABILITATION CENTRE SYDNEY – 600 VICTORIA ROAD, RYDE  
2112 – REQUEST FOR TRAFFIC LIGHTS ON VICTORIA ROAD**

The purpose of the letter is to request that RTA approve an additional set of traffic lights on Victoria Road to serve as an ingress / egress point for the proposed redevelopment of the Royal Rehabilitation Centre Sydney (Major Project 05\_0001 under Part 3A of the EP&A Act 1979).

Royal Rehab has consulted with the community over the proposed traffic arrangements for the redevelopment. Ryde Council and the community have expressed a strong preference for traffic lights to be located on Victoria Road. Royal Rehab supports the position adopted by Ryde Council and the community.

Royal Rehab understands that it is RTA's present position that traffic lights cannot be permitted in this location due to the proximity of these lights to the existing traffic lights at Charles Street. If RTA was to allow traffic lights on Victoria Road, Royal Rehab advises that it would not oppose this solution.

Royal Rehab joins with Ryde Council and the community to request that RTA review its current position on the lights. Can you please advise whether traffic lights would be permitted in this location. A prompt response would be greatly appreciated.

Yours sincerely

**Peter Williamson**  
Chief Executive Officer
