

Got a fix on wheelchairs

For those competitors at the Sydney International Wheelchair Tennis Open last week, Hamish Murray was the go-to-guy for any chair problems. Mr Murray was representing the Royal Rehabilitation Centre at the event and undertook repairs to wheelchairs and tyres.

Mr Murray said he was not "at Bathurst speed" but had worked out the difference between each country's chair. Mr Murray also offers his service to community mem-

bers through the Royal Rehabilitation Centre.

Whether you need it cleaned, maintained or your seat fixed, you can take it to the centre where it will be repaired in between treatments or a loan chair will be provided for others.

The service is available from Monday to Friday from 7am to 4pm at 59 Charles Street, Ryde. For more information, phone 9808 9308.
